BROADLOOM

As its name implies, Multiplicity combines light, medium and dark yarns to create an interesting, yet defined collection of color ways. **Multiplicity Broadloom** features neutrals ranging from warm beiges, taupes and browns to cool grays, charcoals, greens and blues to round out the 12-color line. Its sister line, **Multiplicity Tile** adds six bright, energetic accent colors that can be used in conjunction with the neutrals or stand alone to make a bold color statement.

For education, retail or office spaces that require a subtle color but no pattern, Multiplicity is the perfect choice. It is also a great solution for senior living because its tight level loop enables ease of mobility.
