

TANDEM COLLECTION

IN HARMONY

UNISON

IN HARMONY

Unique pairings go together and work well in conjunction with one another, much like, salt and pepper, peanut butter and jelly, black and white, hence they complement one another. It's their arrangement which sets them apart from one another, allowing each to play an effective role in the mix. In the case of black and white, each is capable to stand alone, but when combined into either fashion or interiors the pairing can set a bold tone of contrast completely different than if used alone. Such can be said for the product pairing **In Harmony** and **Unison**, Philly Queen Commercial's latest broadloom tenant introductions.

In Harmony, a go anywhere, hi-lo textured coordinate in the Tandem Collection, it beautifully complements the medium scale checker pattern **Unison**. 13 richly sophisticated colors developed to offer a wide range of aesthetic options. Undeniably the two pairing upgrade even the most basic of tenant spaces.
