

WALK THIS WAY COLLECTION

STEP RIGHT IN

TAKE A TURN

STEP RIGHT IN

How do you introduce pattern and color at the entrance of your building without competing with the design of the interior? Recommended for installation in entrance zones 2 and 3, the **Walk This Way Collection** is your answer. It offers two tile products that have a touch of color in patterns that complement almost any other visual. This allows the end user to create an entrance into their space that is pleasing to the eye and removes dirt and debris.

54860 Step Right In is a subtle weave with emphasis on the vertical lines.

54861 Take a Turn is a repetitive diagonal pattern.
