

LokDots™ is a pressure sensitive adhesive system used for installing EcoWorx carpet tile. This non-toxic and odorless system provides an alternative to wet adhesive, virtually eliminating the issue of VOCs (Volatile Organic Compounds), and providing ease and versatility of installation.

Application

An intuitive system that allows for flexible installation, LokDots are applied using a durable, lightweight handheld applicator with triggerless design that is ergonomically safe and intended for repetitive use. Floor preparation is limited to clearing dust and debris.

Features and Benefits

A simple solution for even the most complicated installations:

- Efficient installation, increasing productivity and reducing costs
- Durable applicator requires no maintenance and little training
- Product can be installed at 12 pH, up to 10 pounds and 95% relative humidity; save on remediation in high moisture applications
- Ideal for use in occupied space, system eliminates the mess, curing time and odors of wet adhesives allowing immediate occupancy
- Can be installed over concrete, VCT, VAT, cutback, raised access floors, pressure sensitive and multipurpose adhesive, wood
- Offers easy removal, it releases easily – no scraping or sanding over

Proven Performance

- More than 70,000 yards installed
- Installed in education, healthcare, corporate, and government applications
